Restoring Function and Esthetics with Dental Implants

Presented by Dr. Mark Montana
Wednesday, December 3, 2014 | Naperville, IL

Co-sponsored by Ottawa Dental Laboratory, LLC
Restoring Function and Esthetics with Dental Implants

This presentation is appropriate for the dentist who is interested in gaining comprehensive training and knowledge in restoring dental implants. The emphasis of the presentation will be on practical treatment solutions to meet everyday challenges. The scope of treatment modalities will feature overdentures, hybrid prostheses and fixed prostheses and why each discipline is distinct from the others. The discussion will include treatment planning and basic to advanced prosthetic principles and techniques as well as an introduction to a new implant system featuring a design philosophy based on the natural dentition utilizing a site-specific, crown-down approach. The format for this course is lecture with invitation to question and answer.

At the conclusion of the seminar, participants will be able to:

- Select abutment options for edentulous therapy with both fixed and removable overdenture solutions
- Recognize the role of implant biology, biomechanics and surface technology and how it relates to longevity in successful implant therapy
- Select abutments for both fixed and removable restorations, including the latest patient-specific overdenture solution
- Confidently treatment plan and restore dental implants in everyday practice
- Recognize the easiest and most innovative way to restore implants via a CAD/CAM custom abutment system

DENTSPLY Implants is committed to new and innovative knowledge, however sponsorship by DENTSPLY Implants does not necessarily imply endorsement of a particular philosophy, procedure or product.

DENTSPLY is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. DENTSPLY designates this activity for 2.5 continuing education credits.

Dr. Mark Montana is a 1987 graduate of the University of Southern California School of Dentistry and completed his Certification in Advanced Prosthodontics at USC in 1989. He has been primarily involved in private practice in Tempe, Arizona, emphasizing fixed, removable and implant prosthodontics. Dr. Montana has been involved in clinical instruction while attending USC and as a pre-clinical instructor at the Arizona School of Dentistry. He has lectured domestically and internationally on the topics of implant, fixed and removable prosthodontics. He has served on several of his state’s dental committees. His memberships to professional organizations include the American College of Prosthodontists, the Academy of Osseointegration, the Academy of Fixed Prosthodontics, the Pacific Coast Society for Prosthodontics and the American and Arizona Dental Associations.

The participation of this speaker has been made possible through support from DENTSPLY Implants.
